PROFESSIONAL SUMMARY

Motivated and detail-oriented **Cybersecurity and Cloud Computing professional** with a growing background in cloud technologies, ethical hacking, and IT security fundamentals. **AWS Certified Cloud Practitioner** with hands-on exposure to AWS core services, identity and access management, and cloud security best practices. Demonstrates strong analytical thinking, a passion for continuous learning, and a commitment to securing systems and data. Actively seeking entry-level roles or internships in cloud computing, SOC operations, or cybersecurity.

EDUCATION

Bachelor of Business Information Technology (BBIT)
KCA University, Kenya
Expected Graduation: **December 2026**

TECHNICAL SKILLS

Cybersecurity: Ethical Hacking Fundamentals, Network Security Concepts, Vulnerability Identification, Threat Awareness, SOC & Incident Response Fundamentals
Cloud Computing: AWS Cloud Fundamentals, EC2, S3, VPC, IAM, Shared Responsibility Model, Cloud Security Best Practices
Programming & Scripting: Python (Basic), JavaScript (Basic), TypeScript (Basic), CSS
Databases & Systems: MySQL, SQL (Basic Queries), Linux Command Line (Basic)
Tools & Platforms: Git, GitHub

PROJECTS & HANDS-ON EXPERIENCE

Cybershujaa Ethical Hacker Training
- Completed structured training covering penetration testing fundamentals, reconnaissance techniques, common vulnerabilities, and defensive countermeasures.
- Practiced identifying security weaknesses and understanding mitigation strategies in simulated lab environments.

AWS Cloud Practitioner Hands-on Labs
- Gained practical exposure to AWS core services including compute, storage, networking, and identity management.
- Applied cloud security concepts such as least privilege access and shared responsibility.

PLP Technical Project
- Collaborated on technical projects focused on problem-solving and applied IT concepts.
- Strengthened teamwork, communication, and technical documentation skills.

Web Application Development Project
- Designed and built a responsive web application using React.js and Node.js.
- Integrated a MySQL database for backend data storage and management.
- Utilized GitHub for version control and collaborative development.

CERTIFICATIONS

- AWS Certified Cloud Practitioner (CCP)
- Cybershujaa – Ethical Hacker
- PLP Project
